General Notes

All data in this report is provided by States and Territories on the ACF-800 (aggregate) and the ACF-801 (case-level) reports. Some adjustments have been made in the data to reflect those served by CCDF subsidy funds only. Many States provide additional child care services with non-CCDF funds. CCDF funds include Discretionary (including transferred TANF funds), Mandatory, Federal Match, State Match, and Maintenance of Effort funds.

Data has been updated to include revised FFY 1998 data submitted by States from October - October 2000.

Notes:

¹ Average monthly number of children served is extrapolated from sample data provided by the State based on the ratio of children to families in the sample.

² Number of children and families reported are based on less than six months of data.

³ The reliability of the data provided is highly questionable due to serious information system problems during the reporting period.

⁴ Reporting problems caused an underestimate of average children served monthly during FY1998.

⁵ Unable to report any ACF-801 case-level data.
